## Improvements in teaching and learning Process:

21 responses

Yes

Increase practical and field work

Teach students the research process as it is the need of an hour. Made library attending session for students almost compulsory, that will lead them to learn and explore more books and ultimately the world.

More practical knowledge should be given to students

yes

There is always a scope for improvement

All the vacant seat are fulfilled and a big hall will build

Yes there is a need,

Yes Sure

No need to improve teaching skill because of teachers are highly skilled but resources are not available for the development of pupils.

There are always need of changes, learning process must be dynamic

Yes sure

its good

Field studies.

Social relevant component.

Local component can be added to curriculum.

Teaching may be supplemented with rigorous practical in science and internships in other disciplines.

No

Teaching is good....but for learning,there should be some group discussion,doubt sessions

A little bit

Make use of teaching learning aids

Principal  
Govt. Degree Colle.  
Ramnagar

No

Just make a humble and friendly environment with students so that they can learn in a better way

Made library attending session for students almost compulsory, that will lead them to learn and explore more books and ultimately the world.

Canteen facility is almost null in this college, no auditorium seen so far , do something for that too, sports materials not upto date., No indoor stadium dor students as sports or physical activity is equally important.

I am sure you will act upon these suggestions , and will not limited to these form only.  
Thanks for asking for suggestions.

A session should be held for 6th SEM students in which there is discussion on their career options...

Colleges also need to teach students about, How to earn money or how to survive in day today's life because no teacher teaches us that after the degree, What should we do , A student gets his degree from college or University but he don't know what to do next. So please don't only focus on degree but also it must be the priorities of college staff to prepare a student for surviving in day today's life because everyone can't get job. In our education system from class 1st no one would teach us about how to earn money or how to survive day today's life . The only thing that a teacher teaches student is that you must get good grades and get a good job but after completing degree not everyone gets job so many students are depressed, also their parents are in tension, So please do something if u can.  
Thanks

As a sports person , I would like to suggest to focus on sports infrastructure and opportunities for students in sports field.

Please organise an annual function and invite all of us

Need experienced and permanent faculty.

Don't focus only on degree, teach students about how to earn money how to survive day today's life.

Plzz provide the resources according their needs because of absence of resources create gaps between rural area and urban area.

Yes

Teaching staff should tell students how to earn money because after any degree the main purpose is to get a job and live a life but not everyone gets job so teachers should not focus only job job but also any other options to earn money.

  
Principal  
Govt. Degree Coll.  
Ramnagar

We want our quality of education to increase more High Qualified teachers will b point

no

Botanical Garden.

Horticulture related work.

Starting research activities with a interdisciplinary cluster.

Students can be encouraged to take up some local socially relevant activities.

Students must involve in other activities too....

Excellent

Beside of books teachers should also focus on students about how to earn money because in schools colleges no one talk about how to earn money after getting the degree because in real life money is needed so techers should talk to the students about different ways of earning money eg Network makreting Govt. also focused on it and also Govt. Should also draw guidelines on it also like this there are many ways ways of earning money techers should talk to students about it.

Make physical education compulsory subject in the college and make best efforts to guide students for choose physical education as their compulsory subject.

No doubt in this modern world of technology (Digitilism), Everything is going to become a machine, even man also

He is becoming emotionless day by day.

The only thing which can keep him away from becoming a machine(emotionless)is moral education.

There is great necessity of Moral education In present scenario

No suggestion

I have no suggestions
