Nothing

Use better graphics and visual media to engage students well

Nothing

Toilet conditions , poor light condition and professor deficiency.

Some. Of the. Teachers(contractual)in our college is unable to flip even 50% of syllabus.....
And this becomes a routine for them..... And results are known to students

1. Students should have interaction with principal sir to give feedback of those teachers,once in a week
- 2.proper. Review of class handed by contractual from AP
- 3.Set up a conducive schedule for weekly test , once in a week Not all the days of week

4. Student have the right to submit feedback of what they do in two weeks in between class...
What the problem faced by them... .. How much work is done in that class How much leaves are given by teacher..... What's the improvement they want..... What is the probability of syllabus completing according to students as perspective to teacher.....

Etiquette opinions (mine) based on real observation in classroom

It's good to be a part of this college.

V good 🍌

- 1.Well trained staff. 2. All educational facilities should provide to students.

Govt degree college ramnagar

Good all

Kindly give more project and real time problems to solve...

Course can be more research oriented

New technology monthly updates can be given ...

Ramnagar

Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

Cover 50-70 % syllabus,

Use better graphic and visual media to engage students well
Try to reach every students and ask for their doubts

Make teaching a two way interaction

Excellent

Use better graphics and visual media to engage student well.
try to reach every student and ask for their doubt.
May teaching a two way interaction

Our college provides us to all facilities to all students and they were always teaching the good things

The Facilities of Games and Equipments should be upgraded and the timetable should be more accurate and time productive.Nothing can say about teaching like literally there are contractual professors who are literally changed right after a month after getting familiar with the class and the new one just take as much time as he does to settle down the class and to make student attentive(About 2 weeks). And the duration of semester should be 6 months which is concluded under 3 or 4 months. Then how are we supposed to cover lengthy syllabus in a short period of time with a unstable staff

- (1) implement active learning strategies
- (2) Utilities technology effectively
- (3) Foster a positive learning environment

Bus problem

Shoba

Every thing is good

Use better graphics and visual media to engage students well.

Advance level project, Lab Material, Good environment

Improve our ground
Provide regular practice
Provide professional coach for vollyeball

Presentation, assignment, learning test .

The teachers should be able to inculcate a feeling of positive environment esp. in this field .
They always try to engage us in useless things without any practical knowledge .
The parity between the teachers and students is very wide.. We cant say or raise our voice..
Our respected Principal sir is nothing but a clown who does nothing . We try to organize a farewell but he clearly denied this . Our college bus was down for around nearly a half year. But he does not ask us about it. He does not know how to talk with students .
That's why this college is one of the worst colleges I have ever seen

Learning experience in your institution

Are already very good

Very nice

Good job nice emotional

Overall experience is good

1 very good

Explain with examples

In every institute principal can also check the classroom and abilities of teachers and see how they study the children

First- Our principal sir has zero interaction with students. They should approach Students.

Second- No sports activities are there. NO Competitions, No tournaments whatsoever.

Third - Some Teachers are excellent but some teacher don't even know how to teach and how to interact. In some departments there are no HODs. Even in our last semester Contractual teachers joined the college after more than 1 month of our session and upto then all the students were in panic about the syllabus. Also there was no positive response from our principal. The consequences of which was that less than 50% of our history syllabus was uncompleted.

I know this survey will not have any effect but still I am giving my honest review. Thank you 😊

1. Incorporate technology: Technology can enhance the learning experience by providing interactive and engaging resources. Teachers can use multimedia presentations, educational apps, and online platforms to make lessons more interesting and accessible. Students can also use technology for research, collaboration, and self-paced learning.

2. Differentiate instruction: Every student has different learning needs and styles. Teachers should strive to differentiate instruction by adapting their teaching methods, materials, and assessments to meet the individual needs of each student. This can involve using various instructional strategies, providing extra support or challenges, and offering different modes of assessment.

3. Encourage active learning: Active learning involves students actively participating in the learning process rather than passively receiving information. Teachers can incorporate activities such as group discussions, hands-on experiments, project-based learning, and problem-solving tasks. This approach promotes critical thinking, collaboration, and deeper understanding of the subject matter.
